

Dear citizens,

As mayor of Strassen, please allow me to express a few thoughts and call upon your valuable support in the local elections on Sunday 9th.

Together with Betty Welter, municipal councilor and president of the commission for integration, we have taken all possible measures to actively involve non-Luxembourgish citizens into our communal issues, thus creating the department 'Together better', the only one of its kind in Luxembourg.

Our strong commitment has left its mark on Strassen, now being a progressive, open-minded community in every field (education, mobility, culture, integration, affordable housing, durability, solidarity, ...)

The LSAP members and non-members, who make up our 'open list', have proved their ability to act in an efficient way, and they are prepared to offer their political responsibility, thus promoting a continuous but moderate development of our municipality, putting into practice the involvement of both Luxembourgish and non-Luxembourgish citizens in our daily lives, and imparting a sense of security and quality of life.

We count on your valuable assistance and confidence to reach our goals!

Support us with your vote!

We would like to thank you in advance for your commitment in favour of the candidates on List 3.

Gaston GREIVELDINGER
mayor

Betty WELTER
municipal councilor
